

Liberation (تحرير Tahrir) From Colonialism Demands the Implementation of Shariah Law of Allah (swt)

“U.S. Central Command (CENTCOM) completed the orderly departure of U.S. forces and equipment from Erbil Air Base, Sept. 30, marking the end of the Operation Inherent Resolve mission in Iraq.”

Has Iraq regained its independence with the departure of American troops? No; America only withdrew its forces after establishing a subordinate regime there.

Have any of the Muslim states, including their strongest states of Pakistan, Türkiye and Egypt, achieved independence? No; decades ago, when British and French armies withdrew from our lands, people hoped for independence. In reality, however, those armies only departed after constructing a new form of control—a factory of neocolonialism that manufactures agents and followers of the Western states in each successive generation.

After decades of increasing general awareness, the peoples discovered that there is no independence; they realized their states remained subject to British and French colonialism, before America stepped in after World War Two to introduce its own brand of neocolonialism.

True liberation (تحرير Tahrir) begins by rejecting Western culture, agendas, policies, laws, collaborators, and corrupt regimes, and then establishing the Shariah ruling governance—rooted in the Ummah’s Aqeedah (creed)—upon their ruins.

Any movement for change in our lands that does not prioritize liberation from foreign policies and laws cannot achieve independence.

Any movement striving for independence must have prepared an extensive blueprint of Shariah governance, extending to ruling, economy, foreign relations, social system, healthcare, information technology systems, education policy and foreign policy.

Any movement striving for independence must not limit itself to exposing the plans of the colonialists, but must also link the Shariah rulings to the affairs of the Ummah, citing their evidencing from the Noble Quran and the Prophetic Sunnah and what they indicate of the Unanimous Consensus of the Companions (ra) and the Shariah analogy (qiyaas).

That movement of liberation from colonialism is called Hizb ut Tahrir (حزب التحرير Liberation Party), so let’s all strive with it, seeking the nasr (victory) of Allah (swt).

Asim Munir is Assisting America in Creeping Back into Afghanistan Through the Back Door, After Bolting Out of Its Front Door

On 28 September 2026, the media wing of the armed forces of Pakistan confirmed that, “A delegation of the U.S. Afghanistan War Commission, led by its Co-Chairs Ms. Shamila N. Chaudhary and Dr. Colin F. Jackson, called on Field Marshal Syed Asim Munir.”

This meeting undermines the security of both Pakistan and Afghanistan, betraying secrets to US military planners.

The US Congress established the Afghanistan War Commission in 2021 to “derive insights and actionable recommendations in an unclassified, public final report designed to inform effective strategic decision-making.”

As for Dr. Colin F. Jackson, he has strong ties with the US Department of Defense and US military. In 2011, he deployed in uniform to Afghanistan as executive officer for policy planning for the deputy chief of staff, operations, U.S. Forces-Afghanistan (USFOR-A). Jackson served as the US Deputy Assistant Secretary of Defense for Afghanistan, Pakistan, and Central Asia between 2017-2019, overseeing the American violent disruption of the region. Jackson served as the senior Department of Defense official at the U.S.–Taliban peace talks, to engineer a safe exit for

the US. Now, whilst serving as a lieutenant colonel, Jackson is planning the re-entry of the US menace through the back door.

Indeed, the US is desperate to re-enter Afghanistan with the help of “Trump’s favorite field marshal,” Asim Munir. The US wants control of its highly strategic Bagram Airfield (BAF) and its huge deposits of Rare Earth Elements (REEs). In 2010, an internal US Department of Defense memo called Afghanistan “the Saudi Arabia of lithium,” with a value of at least \$1 trillion. On September 18, 2025, Trump confirmed that the US government was “trying to get [Bagram] back.”

O Muslims of Pakistan and Afghanistan! Your enemies are plotting against all of you with the help of Trump’s agents. Demand the breaking of any weapons that point at Muslims. Demand the establishment of the Khilafah Rashidah (rightly-guided Caliphate) that will unify the Ummah as one force against the disbelievers.

The Shariah Law of Allah (swt) Alone Provides Bangladesh Escape from Riba (Interest) Debt

On 27 September 2026, Prothom Alo reported, “The Economic Relations Division (ERD) published an updated report on the foreign loan situation for July-August today, Sunday. The report contains this information.”

Study of the report confirms there is no escape for Bangladesh from riba (interest) debt under the system of capitalism and colonialism. The riba (interest) mafia gave Bangladesh USD 294.5 million in loans in the first two months of the current fiscal year, July-August. However, Bangladesh had to repay nearly USD 700 million in principal and interest on previously borrowed loans during the same period.

The sin of riba increases the burden on the state treasury and the people. In his budget speech of 11 June 2026, Amir Khosru Mahmud Chowdhury, Minister Finance and Planning Minister revealed, “As debt levels increased, interest expenditure also grew significantly. National interest payments, which stood at Tk. 8 thousand 500 crore in FY 2005–06, rose to Tk. 1 lakh 14 thousand 700 crore in FY 2023–24, reflecting the growing burden of debt servicing on the budget and its implications for development spending.”

There is no escape from riba debt outside of the implementation of the Shariah Law of Allah (swt). Islam forbids the paying and receiving of riba. Islam forbids the misappropriation (ghulool) of wealth.

Allah (swt) says, ﴿وَمَنْ يَغْلُلْ يَأْتِ بِمَا غَلَّ يَوْمَ الْقِيَامَةِ﴾ **“Whoever misappropriates wealth will bear what he misappropriated on the Day of Judgement”** [TMQ Surah Aal-i Imran: 161].

The Prophet (saw) said to Muadh bin Jabal (ra) when sending him as an official to Yemen, «لا تصيبن شيئاً بغير إذني، فإنه غلول، ومن يغلل يأت بما غلَّ يوم القيامة» **“Don’t acquire anything without my permission as it is misappropriated (Ghulul), and whoever misappropriates will bear what he misappropriated on the Day of Judgement.”**

All funds and properties misappropriated by the rulers and officials are seized from them, and put in the state treasury.

In this way, Shariah mobilizes funds for spending on obligations, including any outstanding principal on debt.

US Policy Is to Deny Nuclear Deterrence Capability to Muslim States by Using Strategic Civilian Nuclear Cooperation

On 26 September 2026, Protham Alo reported, “Bangladesh and the United States have signed a strategic civilian nuclear cooperation agreement aimed at the peaceful use of civilian nuclear energy. Rehan Asad, prime minister’s adviser on science and technology, signed the agreement on behalf of Bangladesh, while US Under Secretary for Economic Affairs Jacob Helberg signed on behalf of the United States.”

The U.S. wants nuclear supremacy over the entire world, having used nuclear weapons against the civilians of Japan in the past, and more recently having made negative comments about the nuclear weapons of Pakistan and then threatening the Muslims of Iran with nuclear annihilation. The U.S. uses strategic civilian nuclear cooperation to prevent Muslim states from acquiring nuclear deterrence capability, or in the unique case of Pakistan, preventing Muslims from competing with the U.S. and its protégés, the Hindu State and the Jewish entity.

The Sunnah of the Prophet (saw) establishes the building of military capabilities to the level of superiority, if not supremacy. After the Battle of Badr was fought with a shortage of swords and shields, the Prophet (saw) established substantial local arms manufacturing capability. He supervised the military innovation of catapults and siege tanks. Adopting the blessed Sunnah, over centuries, the Islamic State established military arms supremacy over the tyrants of the world. The Mysorean rockets of Tipu Sultan, the colossal super-cannon of Muhammad Al-Fatih and the torpedoes of the Ottoman navy all struck terror in the hearts of the enemies.

The Muslims of Bangladesh must demand the tearing up of all technology agreements with the U.S. and the colonialists that consolidate the military superiority of the disbelievers. The Muslims of Bangladesh have no shortage of brilliant sons and daughters, who are currently found in the best universities and research facilities in the world. Let them establish the Khilafah (Caliphate) on the Method of the Prophethood, which will revive the Prophetic Sunnah of striking terror into the enemies of the Islamic Ummah, deterring them ahead of their defeat.

Asim Munir Secures an Order for Drones that Prepares the Ground for the Recognition of the Jewish Entity

On 23 September 2026, Al Jazeera stated, “Pakistan’s latest Trump bet is on drone firm already selling to India. The company’s cofounder is also an ex-‘Israeli’ soldier. Pakistan does not recognise ‘Israel’.”

Asim Munir personally met Powerus to secure an order for drones. On 18 September, Aureus Greenway Holdings Inc. announced that it and “Autonomous Power Corporation, doing business as Powerus, today jointly announced that it has received a limited procurement order from the Ministry of Defence of the Islamic Republic of Pakistan for unmanned aerial systems and associated support.”

Asim Munir secured the order even though Powerus has ties to the intelligence of the Jewish entity. The website of Powerus confirms Ziv Marom as a co-founder & Chief Vision Officer. Marom is an “Israel” Defense Forces veteran who served in the Intelligence Corps. He later founded Kaizen Aerospace, which became part of Powerus.

Asim Munir secured the order even though Powerus granted India drone interceptor technology, as confirmed by a June 30 filing to India’s stock exchanges by Paras Defence and Space Technologies.

Asim Munir secured the order even though Trump’s two oldest sons are investors in Powerus through a vehicle called American Ventures.

Asim Munir secured the order even though Pakistan has excellent drones developed jointly by Baykar of Türkiye and National Aerospace Science & Technology Park (NASTP) of Pakistan.

Thus, Asim Munir secured an order that compromises the military infrastructure of Pakistan to the American crusaders, the Jewish entity and the Hindu State.

Moreover, Asim Munir’s order is part of a web of security alliances that Trump is spinning to trap the strongest Muslim state, Pakistan, in dependency upon the Jewish entity, ahead of its recognition and normalization.

O Muslims of Pakistan! Raise your voices to abort this open treachery. Demand the establishment of the Khilafah Rashidah (rightly-guided Caliphate) on the Method of the Prophethood that will liberate Palestine from the river to the sea, by the permission of Allah (swt).
