

## The OIC Festival Concludes that Qatar and the Arab States Remain Loyal to Being America's Tatty Shoe While Barking Fiercely at the Clouds

### News

Following the Zionist entity's missile attack on Hamas members in Qatar, the final communiqué of the emergency Arab-Islamic (OIC & Arab League) summit held in Doha on September 15, 2025, *"strongly condemned Israel's aggression against Qatar, describing it as a blow to any prospects for peace in the region. The declaration urged member states to reconsider their diplomatic and economic ties with Israel and to pursue legal measures against it."*

### Comment

An earlier draft statement warned that these actions jeopardize "everything that has been achieved on the path of normalizing ties with 'Israel', including current agreements and future ones." The OIC and the Arab League continue with their condemnations and warnings as they have been doing for years and decades and yet it is still 'business as normal' for Arab League members.

UAE Foreign Minister Sheikh Abdullah bin Zayed met with Prime Minister Benjamin Netanyahu on the sidelines of the UN General Assembly in New York, according to UAE state news agency on the 27<sup>th</sup> of September where he stressed the urgent need for ending the Gaza war while reiterating the UAE's "unwavering commitment to supporting all initiatives aimed at achieving a comprehensive peace based on the two-state solution, in a way that fulfills the aspirations of both the Palestinian and Israeli peoples." When the statements of the Arab leaders and the US administration are considered side by side no difference can be seen except in rhetoric. The US administration boasts its loves for the Jews and its eternal support for the Zionist entity, while the Arab leaders condemn the crimes of the Zionist entity. Nevertheless, both the master and the puppets on his leash agree upon the full integration of the Zionist entity in the Arab and the Muslim world and view the genocide against the Palestinians as an obstacle to their shared goal.

Even on the two-state solution, with a Palestinian and Jewish state living side by side, there is no difference. Trump even relieved some of the internal pressure on Netanyahu from within his government by publicly stating that annexation of the West Bank "will not happen." With or without a Palestinian state, the Arab League will remain a hollow balloon full of hot air maintaining US hegemony over the hundreds of millions of people of the Middle East in order that the so-called leaders of its member states can keep their thrones, upon which they sit as mere clowns.
