From Al-Hind to Al-Quds Conference - Speak Out - Act - Liberate

Hizb ut Tahrir / Britain will hold two conferences this weekend in London and Birmingham exposing the continuing oppression of Muslims in India and Palestine. Conference speakers will address the diseased ideologies of hate that the oppressors use to garner support for their campaign of death and destruction; namely Hindutva and Zionism.

The conference aims to also expose the complicity of those adopting the expedient ideology of secular capitalism, as their nation state-based world order serves as a convenient excuse for inaction, as the nations of the world impotently observe the daily carnage, without lifting a finger to prevent it. This charge applies even more to the surrounding Muslim national states, with their secular rulers who actively stand in the way of anyone who would seek to end the oppression and liberate the Muslim Ummah.

The speakers will demonstrate how Islam, when implemented as an ideological state, did and will again provide a peaceful home for peoples of all religions, including the Hindus and Jews, as Islam recognized them as citizens of the Islamic State, rather than as ethnic minorities, as is the case for Muslims today. Such divisive thinking has only fueled conflict between people in the current secular world order.

Finally, the conference will end with a message of hope to all the oppressed people of the world, especially the Islamic Ummah, as the secular hegemony will soon end, to be replaced by the second Khilafah Rashidah (Rightly Guided Caliphate) on the way of Prophethood, with Allah's (swt) permission.

We urge you to support and follow news of the conference on social media with the hashtag #HTBConference2022
